

NADA AHMED

Senior AI & Growth Product Manager · Arabic Speaker · Founder

nadaahmed296@gmail.com · +971 54 211 9901 (UAE) · +20 111 931 7967 (EG) · Abu Dhabi, UAE / Cairo, Egypt
linkedin.com/in/nadaah · Languages: Arabic (Native) · English (Fluent)

Attested Credentials: Criminal record certificate and academic degrees attested by the Egyptian Ministry of Foreign Affairs and the UAE Consulate — cleared for UAE government and public-sector engagements.

PROFESSIONAL SUMMARY

Senior AI & Growth Product Manager with 5+ years delivering AI-native, automation-driven, and fintech products at scale — built on a foundation of software engineering and QA. Owns the full product lifecycle from discovery and PRDs through build, launch, experimentation, and retention. Deep experience in growth product: activation and conversion funnels, lifecycle and retention loops, A/B testing and experimentation, and data-driven iteration. Combines engineering fluency (LLM validation, API testing, agentic AI) with sharp growth instincts to move activation, conversion, and retention metrics. Bilingual Arabic/English, with a track record mentoring product owners and building product and QA teams, onboarding processes, and documentation from the ground up.

CORE COMPETENCIES

Growth Product: Activation & Conversion Funnels · Retention & Lifecycle Loops · A/B Testing & Experimentation · Referral & Growth Loops · Behavioural Triggers

AI Product: LLM Product Development · Agentic AI · AI Agent Roadmapping · Prompt Engineering · LLM Output Validation · Conversational AI

Product Craft: Product Strategy · Roadmapping · PRDs · GTM Planning · Backlog Prioritisation · OKRs & KPI Definition · Market & Competitive Analysis

Leadership: Mentoring Product Owners · Building Product & QA Teams · Onboarding & Documentation · Cross-Functional Delivery · Stakeholder Management

RECOGNITION & COMMUNITY

- **Women in AI Ambassador — Egypt.** Selected to represent women in AI, leading sessions on AI adoption, women's empowerment, and building careers in tech.
- **ITIDA (Ministry of Communications) Semi-Finalist.** Qualified to the semi-finals with Testify, an independently built AI-powered platform for testers, product owners, and developers.

PROFESSIONAL EXPERIENCE

Smart Bricks | Senior AI & Growth Product Manager (Contract) 2026 – Present

UAE · a16z-backed AI-native proptech — first MENA startup selected to TechCrunch Startup Battlefield 200

- Engaged on contract to introduce AI-powered features and lead growth and retention strategy at Smart Bricks — a Dubai-based frontier AI lab building agentic AI infrastructure for real-estate investing, backed by a \$5M pre-seed led by a16z Speedrun and recognised among TechCrunch's Top 200 startups globally.
- Drive AI product initiatives embedding agentic AI and LLM-driven intelligence into the real-estate investment workflow, from opportunity discovery through underwriting and execution.
- Own growth and retention: designing activation funnels, lifecycle and re-engagement loops, and experimentation programs (A/B testing) to lift activation, conversion, and retained-user cohorts.
- Partner directly with founder and engineering on roadmap prioritisation, feature scoping, and go-to-market for AI-native capabilities across US, UK, and UAE markets.

Yalla Development Services | Freelance Senior AI Product Manager Jan 2026 – Present

UAE · YallaGain — one of the UAE's first AI-powered fitness coach platforms

- Lead the end-to-end MVP launch of YallaGain, owning the full product lifecycle from discovery through build and go-to-market.
- Own the product roadmap and AI personalisation features — adaptive workout plans, AI-driven progress tracking, and conversational coaching flows.

- Design the end-to-end user journey across onboarding, goal-setting, daily engagement, and retention loops, embedding AI nudges and behavioural triggers at each stage.
- Apply growth engineering across referral loops, personalised recommendations, and activation triggers; define and track activation, daily engagement, AI-feature adoption, and retention cohorts, iterating rapidly on data.

XPay Egypt | Lead Technical Product Manager*2025 – Present*

Top-7 Egyptian payment gateway · Sole PM · End-to-end lifecycle ownership

- Sole PM for the full product lifecycle of one of Egypt's leading payment gateways — from discovery and PRD through launch and post-live optimisation.
- Led the MVP launch of XPay V3.0, delivering balance management, transaction processing, merchant dashboards, and a developer hub on schedule.
- Mentored product owners — coaching on discovery, PRD authoring, backlog prioritisation, and delivery cadence to raise the team's product maturity.
- Ran data-driven iteration in PostHog and Mixpanel — funnel tracking, feature flags, and A/B testing — to continuously improve activation and conversion across merchant touchpoints.
- Defined competitive positioning through structured market analysis benchmarked against Stripe and Paymob, informing roadmap prioritisation and feature differentiation.

Zaffa AI | Founder & CEO*2025 – Present*

MENA region's first AI-powered wedding planning platform

- Founded and lead the first LLM-powered wedding planning platform in the MENA region, building the product from zero to market.
- Own full product vision, roadmap, monetisation strategy, and go-to-market — directly accountable for all business outcomes.
- Designed personalised conversational AI journeys automating vendor matching, budget planning, and timeline management, with workflow automation across lead capture, qualification, nurturing, and conversion.

LocAI (AI71) | Technical Product Lead / Scrum Master*2023 – 2024*

UAE government-grade AI initiative · Legal-tech AI for UAE Ministry of Foreign Affairs & EDGE Group

- Led product quality and delivery for Law71, a legal-tech AI platform adopted by the UAE Ministry of Foreign Affairs (MOFA) and EDGE Group.
- Built Selenium-based LLM output validation frameworks ensuring quality and compliance for high-stakes government AI workflows.
- As Scrum Master, optimised sprint execution and backlog management across complex, multi-stakeholder government programs spanning government agencies, legal teams, and defence organisations.

Mumzworld.com | Product Manager*2023 – 2024*

Largest e-commerce platform in MENA · 5M+ active users

- Independently owned the full mobile app product roadmap for the #1 e-commerce platform in the Middle East and Arab world.
- Led squads and QA engineers as sole product leader, and built the team's onboarding process, product documentation, and new-hire ramp from the ground up.
- Maintained 99.9% platform uptime through peak Black Friday traffic, managing feature delivery and stability at scale.
- Promoted from QA Engineer to Product Manager in four months, recognised for technical leadership, execution quality, and measurable product impact.

SELECTED PROJECT

Testify | Founder & Product Lead (Independent)*ITIDA Semi-Finalist*

AI-powered requirement verification & QA platform

- Independently designed and built Testify, an AI-powered platform helping testers, product owners, and developers verify and complete requirements, and generate testing and development checklists.
- Qualified to the semi-finals of the national competition held by ITIDA (Egyptian Ministry of Communications and Information Technology).

TECHNICAL & ENGINEERING BACKGROUND

Novomind iShop | Senior Software QC Engineer²⁰²⁴

- Introduced squad-based Agile delivery models to eliminate bottlenecks and accelerate feature flow.

Pleny | Software QC Engineer^{2021 – 2022}

- Owned fintech QA processes end-to-end and led full English-to-Arabic product localisation.

Blink 22 | Software Engineer²⁰²¹

- Contributed to core development and API integration testing within Scrum delivery teams.

Alexandria University | Teaching Assistant^{2020 – 2021}

- Taught programming fundamentals and system analysis to engineering undergraduates.

SKILLS & TOOLING

Product & Project Management: Jira · Confluence · ClickUp · Notion · Linear · Asana · Monday.com · Trello

Analytics, Experimentation & Monitoring: Mixpanel · Amplitude · Google Analytics (GA4) · PostHog · Optimizely (A/B Testing) · Datadog

AI & LLM: OpenAI / GPT API · Anthropic Claude · LangChain / LlamaIndex · Vector DBs (Pinecone / Weaviate) · Hugging Face · Cursor · Lovable · Vercel v0 · Prompt Engineering · LLM Output Validation

Automation & Workflow: Make · n8n · Customer Journey & Conversational Flow Design · CRM Integration

CRM & Lifecycle: WhatsApp Business API · Infobip · Intercom · Mailchimp

Design & Collaboration: Figma · FigJam · Miro · Whimsical · Claude Design

QA & Engineering: Selenium · Appium · TestRail · Postman · Git / GitHub · GraphQL · SQL · Python · Java

Delivery: Agile (Scrum / Kanban) · Cross-Functional Leadership · Dependency Management · Release Management

EDUCATION

Alexandria University | B.Eng. in Computer & Communications Engineering²⁰²⁰

GPA: 3.02 / 4.0

CERTIFICATIONS

- Google Project Management Professional Certificate (Nano Degree) — Coursera / Google
- Google Agile Project Management — Coursera / Google
- ISTQB Foundation Level — International Software Testing Qualifications Board
- Product Strategy & Roadmapping — Product Management Certification

Open to Senior AI Product, AI & Growth Product Lead, and Head of Product roles across UAE, MENA, and remote-first teams.
